Summary

Full Stack Developer with experience in Next.js, React, Angular, Astro, and Node.js. I have developed a complete web system from scratch and multiple conversion-optimized landing pages. I adapt quickly to different teams and technologies, with a solid foundation in JavaScript/TypeScript, REST API design, and relational databases. I am results-oriented and committed to continuous learning.

Skills

Programming languages: PHP, JavaScript, Nodejs

Databases: PostgreSQL, MySQL, SQL Server, SQLite

Frameworks: React, Astro, Nextjs, Angular, Laravel, Vuejs, Express

Development tools: Git, GitHub, Postaman
